

# WORLDWIDE RISKS AT A GLANCE - WITH THE A3M GLOBAL MONITORING ADD-ON MODULE

## International Early Crisis Warning

Today, almost every company works internationally. Due to the legal duty of care, you are faced with the challenge of ensuring the safety of your employees whilst they are abroad.

Qualified international crisis monitoring is available to FACT24 clients via the A3M Global Monitoring add-on module.

In partnership with

Global Monitoring Collaboration Dashboards

## Benefits of international crisis monitoring when integrated with FACT24:

### Valid and relevant information

Country and city databases

Editorially validated reports

Crisis monitoring adjusted to actual booking data

### Targeted and automated alerting including evaluation

Individual notifications and alarm triggering in FACT24

Staff are alerted to hazardous situations within seconds and can provide immediate feedback

Early transmission of information increases protection of staff and travellers
